WHAT I WANT TO GET OUT OF THE NETWORK:

- New collaboration;

WE ARE THE ORGANIZATION THAT:

- creates a platform of cooperation between Lublin universities and businesses, we help young entrepreneurs start and develop their own companies by providing the most favorable conditions to run business;
- Our clients are young employers willing to start and develop their own companies whom we help by providing the most comfortable conditions to run their businesses as well as universities, and already established start-ups and tech companies;
- has created a unique system of start-up support. Over the past five years, 20 special purpose entities (SPV) circling around technology have been created (in which LSTP owns shares) and 82 companies were founded as part of the Start Platforms;
- significant human potential including project experts and the science professionals as well as Information Brokers, Ongoing employees trainings in the field of startup support, commercialization of research and project management;
- cooperates with many institutions at the international level;
